# Mo Udall

## What is Your Role in Emerging PD Research?

Dr. Abraham Lieberman will discuss some of the new Clinical Trials available for PD, what they are about and how you can get involved.

Patty Hatton will provide an update on the work of the Parkinson Registry and what we are learning from the over 4,000 people who are Registry participants

## Get Up and Move

Becky Farley is a physical therapist with over 25 years experience in neurological rehabilitation for children and adults. She pursued a PhD in Neuroscience at the University of Arizona to better understand how to develop effective rehabilitation interventions for people with neurological disorders. As well as being a published author on exercise for people with Parkinson's disease she is the creator of the BIG movement program for people with PD. Becky will get you up and moving and give you some ideas on how to exercise at home.

## Visual/Spatial Issues in PD

Are you having trouble with seeing but your vision is okay? Dr. Rohit Dhall will present visual changes that commonly occur with PD. Tom Scheub, Occupational Therapist will give you some ideas about how to handle these changes.

## Living with PD

Lonnie Ali is a partner and caregiver to one of the most beloved men in the world, Muhammad Ali. She prefers to avoid the limelight and has used her own impressive credentials (degrees from Vanderbilt and UCLA) to make her mark. She oversaw the realization of a dream in building the Ali Center in Louisville, KY, named after her famous spouse. She is a passionate advocate for people with PD and their families who has much to share.
